

## IonFlow Evolution

### Swedish Designed Air Purifier

Dimensions:  
7.5 x 23 inches / 19 x 59 cm

Weight:  
5.9 lbs / 2.7 kg (excl. adapter)

Room size:  
Up to 540 sq ft / 50 m<sup>2</sup>

Noise level:  
21 dB (A)

Energy consumption:  
7 W

## Benefits

**99.94%**  
Ultra-fine particle  
reduction

IonFlow Evolution removes the smallest and most harmful particles such as allergens, bacteria, dust, mold, traffic pollution & smoke all the way down to 0.007 microns. Scientifically proven by third party government tests.

Destroys >97%  
virus in the air

IonFlow Evolution protects against microbes in the air, such as virus, bacteria and mold. This makes it an efficient air purifier for allergy, asthma, COPD, pregnant, infants, children and other people sensitive to influenza and other infections. According to a seven years scientific research study LightAir IonFlow air purifiers destroys 97% of virus harmless immediately in the air making sure they will never bother you.

Soundless

IonFlow Evolution will not interrupt your activities or precious sleep! Put it in a bedroom or office and no one will be disturbed! Operates at 21 decibels (compared to 35-80 decibels for HEPA filter systems).

Filterless

IonFlow Evolution is hassle-free and easy to maintain. Once the reusable particle collector start looking dirty, just clean it by rinsing the particle collector in water. No need for ordering new filters and no need for complicated installation of new filters. And don't worry, even if you forget to clean the reusable particle collector it will continue to operate just as efficiently.

Cost saving

There's nothing to replace and no need to ever buy an expensive filter again. This will save you \$50-400 per year compared to typical filter-based air purifiers. Combined with lower electricity costs, savings will go into the hundreds of dollars per year—enough to pay for a second IonFlow air purifier.

# How it works

## Effectively removes:

 <p>Smoke</p>	 <p>Traffic pollution</p>	 <p>Mold</p>	 <p>Pet allergen</p>
 <p>Virus</p>	 <p>Bacteria</p>	 <p>Industrial pollution</p>	 <p>Pollen</p>
